

## USDA BIOMASS CROP ASSISTANCE PROGRAM (BCAP) Live Internet Based Seminar

**Thursday, March 10th from 1 – 2 EST**

The Biomass Crop Assistance Program (BCAP) provides financial assistance to owners and operators of agricultural and non-industrial private forest land who wish to establish, produce, and deliver biomass feedstocks. BCAP provides two categories of assistance:

1. Matching payments may be available for the delivery of eligible material to qualified biomass conversion facilities by eligible material owners. Qualified biomass conversion facilities produce heat, power, biobased products, or advanced biofuels from biomass feedstocks.
2. Establishment and annual payments may be available to certain producers who enter into contracts with the Commodity Credit Corporation (CCC) to produce eligible biomass crops on contract acres within BCAP project areas.

Please join us to learn more about this program. Participants will need broadband Internet access to attend this session. The seminar will begin at 1:00 (EST) and last approximately one hour. Emily Horsley with USDA FSA (Virginia Office) will provide an overview of the BCAP program followed by an open question and answer period.

You must register to participate in this session, please register at the link below:

**<https://survey.vt.edu/survey/entry.jsp?id=1296498270923>**

**SPACE IS LIMITED SO PLEASE REGISTER ASAP.**

Registrants will receive complete instructions to access the live webinar session via email before the session on Monday, March 7th. For more information on BCAP, please visit the [USDA-FSA BCAP Program website](#).

*This seminar is brought to you by USDA's Farm Service Agency and Virginia Cooperative Extension.*
