Calendar Year 2008

Dear Member of North Carolina Association of Professional Loggers:

As a Member of the North Carolina Association of Professional Loggers, Trelan Manufacturing welcomes the opportunity to assist you with your inquiries and research to determine the most applicable Whole Tree Chipper for your operation and needs.

Whether you are choosing to purchase a new, used, or another make of chipper other than Trelan, I would be happy to discuss your needs in detail with you. I simply promise to do my best at pointing you and your company in the direction that would, hopefully, be the most beneficial for you.

Although I would be happy to discuss any Whole Tree Chipper with you, in the event that you are considering a Trelan, I have included information on each of the Trelan Chippers offered today. Hopefully, once you have completed your search for the proper equipment, you would consider Trelan for your Whole Tree Chipper needs.

Trelan Chippers have been on the market for 30+ years resulting in many highly successful chip producers, who continue to use Trelan Chippers today. We would like to see you succeed with a Trelan Chipper as so many of our chip-producing customers have over the years.

If you would like to contact me with your questions or concerns, feel free to contact me at Trelan Manufacturing Toll Free at 877-487-3526 or on my Cell Phone at 989-506-5034. If you are unable to get me, please leave a message and I will surely call you back.

Sincerely  
Neil Schumacher  
President
